

Project "Weight Tracker" -----

1. Headline: Main menu, graph axes, the graph axis does not change dynamically

Severity: major

Description:

1. Open app via the link <http://>
2. Click "New Entry" button
3. Enter weight value > 330lbs
4. Click "save" button

Result: Ordinate axis "Weight" has not changed, maximum value on the axis – 330lbs

Expected Result: according to the requirements , 2.3 Points on graphs, the Y-axis must be formed dynamically from the entered weight.

Note: seems like graph is limited by Weight value = 300lbs

2. Headline: Entering values, Notes column, text displaying outside of the column

Severity: minor

Description:

1. Open app via the link <http://>
2. Click "New Entry" button
3. Enter any weight and height values
4. Enter > 20 characters into "notes" field
5. Click "save" button
6. Click the LOG tab

Result: Characters are displaying outside of the "notes" column – look attach. [^6.png]

Expected Result: characters remain within the "Notes" column boundaries regardless of the number of characters entered.

Project "Internship" -----

3. Headline: Radio button doesn't allow to change gender after choosing female

Severity: major

Description:

1. Open app via the link <http://>
2. Select "Female"
3. Select "Male"

Result: Radio button doesn't respond- look attach [^12.wmv]

Expected Result: Radio button allows changing gender.

4. Headline: Phone number field allows user to enter any symbols

Severity: trivial

Description:

1. Open app via the link <http://>
2. Select phone number field
3. Enter any symbols, other than numbers

Result: text field allows user to enter any symbols

Expected Result: text field allows user to enter only numeric characters

Project "VK Sandbox" -----

5. Summary: The "Mini-apps" item in the Quick Access menu is not displayed, when you disable other menu items

Severity: minor

Steps to reproduce

1. Open site <https://vk.com> as registered user
2. Click on the gear icon next to any quick Access menu item.
3. In the settings window that opens, disable all possible menu items, click " save"
4. Repeat step 2
5. Enable The "Mini-apps" item , select "save" button.

Actual result

The "Mini-apps" item is not displayed

Expected result

The "Mini-apps" item is displayed after selecting "save" button.
